

Is it a delicious Top Banana Jelly Belly® bean, or is it Pencil Shavings flavor? Who knows unless you dare to compare the new Jelly Belly BeanBoozled™ collection of jellybeans? Don't be "bamboozled" by the colors, because it's the flavors that take this fun and outrageous candy to a whole new level.

Twenty flavors are packed into each 1.6-ounce BeanBoozled box. The **10 weird and wild flavors** match-up in appearance with look-alike tasty flavors. Which-is-which is anybody's guess. Is the black Jelly Belly jelly bean Licorice, or is it Skunk Spray? Perhaps the blue bean is Toothpaste flavor, but maybe it's delicious Berry Blue. Think you can tell them apart? We dare you!

A flavor menu on the back of each box gives a clue to the surprises found inside, but the beans look so similar every bite will be a surprising dare. Is it a candy or a game? BeanBoozled is both! It's also a lot of fun, which is what candy is all about.

**Dare to compare!**
